Strategic Issue: Community Health Needs Assessment and Implementation
Plans 2016 - 2018

Issue: Report of Years 1 and 2 results of Community Health Needs Assessment Implementation

Background: The Affordable Care Act requires that nonprofit hospitals conduct a community health needs assessment and develop implementation plans to address the needs prioritized every three years. The most recent needs assessment was conducted in 2015. The ACA requires that the boards of nonprofit hospitals approve the assessment and implementation plans.

A work group of Baptist Jacksonville clinicians and administrators reviewed the needs identified in the assessment and prioritized: **Diabetes, Mental Health and Smoking**. Implementation plans for were developed in consultation with community organizations to address the prioritized health needs and approved by the Baptist Medical Center Jacksonville Board January 25, 2016.

2016-2018 Prioritized Needs and Implementation Plans:

Diabetes: Increase community education of diabetes and the importance of a healthy lifestyle. Increase programming for healthy eating and physical activity through faith and community partners. Leverage Baptist Health's partnership with the YMCA to increase access to screening and health activities.

Mental Health: Partner with United Way and other community organizations to reduce stigma associated with mental illness. Offer training on the warning signs of mental illness and what to do to help youth and adults in the community through faith and community partners. Increase access to services through integrated care clinic collaboration.

Smoking: Leverage Baptist MD Anderson partnership to increase lung cancer screenings and education about prevention activities, including smoking cessation referrals and resources.

Questions for Board Discussion:

As we begin data collection on the next needs assessment, are there any particular populations we should make sure are included in focus groups?

Are there any particular health needs we should make sure are included in the research for the next health needs assessment?

Diabetes	Mental Health	Smoking
<p style="text-align: center;">Programs</p> <ul style="list-style-type: none"> • Provided information and screening at 68 events conducting 2,998 BMI, glucose and cholesterol screenings, 1,072 ppl with abnormal screenings were coached and followed up by phone • Facilitated the Pre-Diabetes CDC Program, 24 Hours to Healthy Living, with a faith partner • Held 4 educational sessions attended by 56 ppl • BMCJ held seven nutrition and/or diabetes prevention classes attended by 130 ppl. • Hosted twelve 8 Weeks to Healthy Living programs with faith partners • 1,060 individuals served at 3 Y Healthy Living Centers, with 571 people receiving a 1-hour biometric screening and 820 health coach sessions <p style="text-align: center;">Strategic Investments</p> <ul style="list-style-type: none"> • Funded UNF to place dietetic interns in community locations resulting in 695 children and 40 adults receiving nutrition education and 20 families receiving fresh produce • Funded free clinics to provide screening and treatment – 10,397 ppl received diabetes screening and 3,858 received treatment • Common measures of patient outcomes were established for free clinics to report beginning in fiscal year 2018 • Provided funding for nursing services for 39 adults with disabilities and diabetes • Provided funding to establish an interactive educational exhibit at 	<p style="text-align: center;">Programs</p> <ul style="list-style-type: none"> • AgeWell Insititute provided education on senior depression to 699 ppl • Hosted Inside Out exhibit to reduce stigma • Held education sessions on bullying and mindfulness attended by 108 ppl • Held weekly meditation sessions on campus • 92 new mothers attended post-partum support groups • Trained 342 ppl in Youth Mental Health First Aid and over 3,000 ppl in Adult Mental Health First Aid • Held a pastoral care conference on mental health attended by 100 ppl • Held the Faith & Mental Health Conference attended by over 130 ppl • Partnered with NAMI to provide peer-to-peer trainings on campus • 16 free classes held for cancer survivors at the Riverside Y Healthy Living Center <p style="text-align: center;">Strategic investments</p> <ul style="list-style-type: none"> • Funded free clinics that provided behavioral health services to 646 ppl • Provided funding to the National Council on Behavioral Health to train 52 ppl as instructors in Adult Mental Health First Aid - 3,398 people were trained • Provided funding to Mental Health America for advocacy efforts • Provided funding to increase access to behavioral health services serving 146 ppl • Funded the 2016 Mental Health in the African Community Conference • Provided funding to UNF to initiate a mental health nurse practitioner graduate program • Provided funding to Seniors on a Mission to engage seniors in local mission trips. 158 seniors participated and 100% of survey respondents indicated their participation helped combat loneliness • Provided funding to establish an 	<p style="text-align: center;">Programs</p> <ul style="list-style-type: none"> • 37 hospital-based respiratory therapists were trained in Ask, Advise and Refer to encourage patients to take smoking cessation classes.
